## SPORT MURPHY SAYS HE'S A FREE MAN

Declares Independence from Richard Croker and His Rule of Tammany Hall.

New York, Sept. 24.—(Special).—After due deliberation and careful consideration "Sport" Murphy, sole potentate of the Tammany hall realms, yesterday broke his rule of silence and made a public declaration of Richard Croker of Wantage. Perhaps the most significant thing about this utterance is that it might be almost word for word a quotation from the public speeches of the former vice regent, Lewis Nixon. Murphy consented to speak only after he had learned that his friend, philosopher, and guide, Senator "Dry Dollar" Sullivan, had spoken in a similar fashion.

Not A Dummy. "I am no dummy for any living man," he declared at Tammany hall today, as he sat at Richard Croker's old desk.

"I never was and never will be any man's moutpiece," he continued passionately. "I am no dummy for Richard Croker. Tammany hall's executive committee elected me, and Tammany hall's executive committee rules in this place. Richard Croker, has decided that he is out of politics."

Not Consulted. "Of course, I have the greatest respect for Mr. Croker. I ought to have. But my respect for him compels me to believe that when he said that he was out he meant it. Croker never had the slightest communication with the advisory committee. On the subject of the choice of a leader he was never consulted and never volunteered a suggestion."

## SPARKS FROM THE WIRES.

William J. Bryan said that the withdrawal of Speaker Henderson was due to fear of defeat.

Major J. W. Powell, director of the Smithsonian Institute bureau of ethnology, died at Haven, Mo. Practice drills began the army maneuvers at Fort Riley; the operations will go on in spite of muddy roads and fields.

Charles F. Murphy, the new leader of Tammany, announced that Croker would never again be leader of that organization.

Bishop Fallows decided to visit J. P. Morgan in New York and try to bring about an arbitration of the strikers' grievances.

Mrs. Bullock Workman, an American author and traveler, broke the Himalaya climbing record by ascending the Lochnagar glacier.

Mrs. Hans N. Kutsch of Chicago sued for divorce, accusing her husband of giving his salary to Dowle, and of refusing to speak to her. Senator Quarles and wife had a narrow escape from death in a railway wreck on a trip from the west in which they lost all their baggage.

Two small parks near the Hull House and one near the Northwestern university settlement were determined upon by the Chicago West Park board. Adjutant General Smith of Illinois advised Governor Yates to retain troops at Eldorado to protect the negroes; conflicts with the whites occur nightly.

Captain Pershing returned from reconnoitering against the Moros in Mindanao; natives were found strongly intrenched and the soldiers refused to surrender.

Jewish citizens of Chicago denied the criticisms of Dr. Adolph Danziger that young women of their race chew gum, and play poker, and wed from money considerations.

Because of President Palma's informal demand the United States troops in Cuba will not be withdrawn at present; the island would be left practically defenseless.

Simon Kurtz of New York, sued the street railroad company for \$10,000 because an accident forced him to shave and prevented his employment in a synagogue.

Charles S. Thornton, the attorney for Captain Edward Williams, was forced to retract his statement that the clerks who received the Chicago temple tax were known.

Protest to Europe against the Jewish persecution in Roumania will probably have no effect; an exhibition of force by the United States would only cause international jealousies.

It has been taken as a step toward centralizing Chicago's financial district on LaSalle street that the Continental National bank's new sixteen story building will be located there.

Arthur J. Eddy of Chicago returned from an automobile trip to Montreal and Quebec, where he said that the auto was still a novelty, and the rural inhabitants barred their doors when it approached.

Superintendent Cooley will introduce household arts, typewriting and mechanical drawing classes in the Chicago public evening schools; the pupils will be classified as American or foreign born.

Municipal ownership of lighting plants by London boroughs has caused protests against the increased taxation; efforts at state socialism were declared to be making officials spendthrifts.

Two hundred stockyard employees in the Armour plant, Chicago, stopped work because their demand for increased pay was not recognized. Four hundred butchers were thrown idle by the action.

President Roosevelt in a speech at Logansport, Ind., favored taking the regulation of the tariff away from politics and placing it in the hands of a non-partisan board which would deal with it as a business proposition.

William H. Young, the alleged murderer of Mrs. Annie Pulitzer of New York, was committed to prison in New York without bail or examination. He denied the murder but admitted attempting to dismember the body.

## MONEY MAY BE ISSUED TO BANKS

Secretary Shaw Talks of Advisability of Making Bonds Market Value.

## STOP STRINGENCY

Would Relieve the Money Market at Once, and Help Prices.

## AN URGENT NEED

(Special By Scripps-McLae.) Washington, D. C., Sept. 24.—Secretary Shaw will return to Washington with the President in order to discuss the advisability of lessening the strain on the money market and doing what he can towards averting a panic throughout the country owing to the present stringency of the market. It is understood that he will tomorrow increase the supply of money in the national banks to the market value of the bonds deposited.

The Changes. This is a change from the original plan to make the deposits equal to the par value and will give the banks receiving the money much more available funds for immediate use thus relieving the strained money value of yesterday and this morning in New York.

The Reasons. Secretary Shaw states as the reason for this change of plans due to the news from the New York markets of the extreme tightness of the money.

## ASK FOR BIDS FOR DECORATIONS

Interior Plan of the New Postoffice is Ready for Completion, Except Decoration Bids.

Washington, D. C., Sept. 24.—(Special).—Bids for the interior finishing of the Chicago federal building were opened at 2 o'clock today. The estimated cost of the contract is \$1,500,000, yet there seems to be no great rush on the part of the contractors to secure this large work. Bids had been received up to noon today, and it is not anticipated that there will be more than five or six. "We have made every effort," said Superintendent Fitzpatrick "to get a wide range of bids, but contractors do not seem anxious for the work. Everybody is busy with private work, and besides, contractors seem to fear the labor conditions prevailing in Chicago. St. Louis is near by and it is going to build an immense exposition which naturally will attract large numbers of laboring men and mechanics from Chicago."

Sent To Chicago. The specifications for the plumbing, electrical, heating and ventilating work on the new building have been forwarded to Chicago. Bids on the work will be opened on October 4.

At the Paris conference of 1900 Lord Alverstone, Lord Chief Justice of England, was made chairman of a committee to draft a treaty to be submitted for adoption by different nations.

## COLOMBIA HAS ANOTHER REVOLT

It Breaks Out This Time on the Northern Coast, and Looks Serious.

Washington, D. C., Sept. 24.—(Special).—The Colombian revolution has broke out in a new place, according to information received at the Navy Department today. An American fruit company transmitted to Secretary Moody a cablegram from its agent at Santa Marta, a place on the north coast of Colombia, near the mouth of the Magdalena River, saying that the conditions there were very much disturbed, that the telegraph and railroad communication had been interrupted, and requesting the department's attention. The dispatch was sent at once to the State Department, and our consul at Barranquilla, a place near Santa Marta, was called on for an immediate report concerning the situation.

Combination and structural changes of buildings in LaSalle street between Adams and Jackson boulevard, have been planned at a cost of many millions of dollars.

## MINERS CAUSE A REIGN OF TERROR

Luzerne County Sheriff Is Unable to Cope with the Troubles.

## WANTS SOLDIERS

Non-Union Men Are Left for Dead by Strikers at Plymouth.

## MOBS ARE PLENTY

(Special By Scripps-McLae.) Wilkesbarre, Pa., September 24.—This section of the country is under a reign of terror since last night and early this morning, the citizens are any minute expecting serious trouble. The sheriff notified the governor at two o'clock this morning that the situation had gotten beyond his control and appealed for troops to aid him in suppressing the rioters. Over a dozen out breaks have occurred throughout the county.

Left For Dead. At Plymouth a number of non-union men were beaten by the strikers and left for dead in the road during the night and in other sections the same state of affairs exists. At Nanticoke street cars were boarded by strikers and were searched for non-union men.

At Exeter. At Exeter a mob of five hundred men prevented men from going to work and a deputy was badly hurt. Large crowds are gathered everywhere and the outlook is serious.

## PLANS MADE FOR ANY EMERGENCIES

Rear Admiral Coghlan Discusses the Situation on the Isthmus at Present.

Washington, D. C., Sept. 24.—(Special).—Rear Admiral Joseph B. Coghlan, second in command on the North Atlantic station, has been summoned to Washington to discuss the general situation in the West Indies, before departing for these waters on board of his flagship, the Olympia. It is stated at the navy department that there is no present intention of sending Olympia to the isthmus, but that she will be sent to some central point in the Indies to watch developments in each of the turbulent republics, which border the Caribbean. The threatened rupture between Great Britain and Venezuela promises fresh complications in the latter country, and renewed out breaks in Hayti are possible at any moment.

Long Experience. Commander McCrea, who from his long experience in dealing with affairs in South and Central America has a valuable knowledge of the conditions there, had a short talk with Secretary Moody today on that subject.

## SOLDIERS DIE OF ASIATIC CHOLERA

Thirty-Five Pass Away in the Philippines in a Few Days, During the Past Summer.

Washington, D. C., Sept. 24.—(Special).—Thirty-five deaths from Asiatic cholera among soldiers of the United States army is the record for the period between July 10 and Aug. 12. These figures are contained in a report received at the War Department today. The assurances that the epidemic of cholera was about to have been so frequent that this large fatality list created surprise among the officials of the War Department. Of the fatalities about a half dozen are those of natives serving in the Philippine scouts. The remainder are American soldiers. General Chaffee's report states that the cholera is scattered all over the islands.

## SPANISH WAR DOUBLES PENSIONS

The Present List is Over a Million That the United States Government Pays.

Washington, D. C., Sept. 24.—(Special).—Pension Commissioner Ware's report, which will be made public for the G. A. R. encampment, will show that June 30 the pension list lacked 551 of containing 1,000,000 names. During July, however, 2,051 names were added, making the total 1,001,447. Pensions growing out of the Spanish American war have had a great deal to do with the increase, although the number of actually pensioned is small in proportion to the entire number of men—something like 300,000—who served in that war.

A Disgusted Soldier. John Williams, who passed through the Spanish war and a campaign in the Philippines unscathed, is a disgusted soldier. He was knocked out by the kick of a horse in Washington the other day and announces it as his opinion that a battle field is a much safer place than a stable.

## LIFE RAFT TEST IS SUCCESSFUL

Eighteen Men Are Unable to Capsize It, and They Ride Waves Safely.

New York, Sept. 24.—Special.—The steamer Valley Girl took 200 shipowners, yachtmen, and others down the bay yesterday afternoon to witness a demonstration of the capabilities of the Carley life boat. It is easily handled without tackle or machinery of any description, and in the water will support more persons than could be crowded into a boat, besides being noncapsizable and nonsinkable.

Carried Eighteen. The Valley Girl went as far as the Homer beacon, and then the raft was thrown overboard. It took two men to slide it off the deck and sixteen men who had been taken on the steamer jumped off the deck and swam to the float and climbed in. The float used today was five by eight feet, and eighteen persons could ride inside. Men climbed on one side of it with the idea of turning the float over, but it still kept on an even keel and floated with the tide.

A Buoyant Cylinder. The float had been put on some of the battleships of the United States navy and on the transports, and it will soon be used on some of the ocean liners. It consists of a copper tube with many air tight compartments. Attached to this cylinder is a rope netting three feet deep, from which is suspended by rings a wood slatted bottom. The float is constructed in such a manner that no matter on which side it may fall up on the water the bottom falls through as in its proper relation to the buoyant cylinder.

## ROOSEVELT IS BETTER TODAY

## SIMPLE TREATMENT

Surgeons Say That the Operation Was Not a Difficult One.

## HE NEEDS MUCH REST

(Special By Scripps-McLae.) Indianapolis, Sept. 24.—Anxiety as to the real condition of President Roosevelt was relieved this morning by the statements of the attending surgeons that the operation was not a serious one and that the President would be only temporarily disabled. The order of the physicians that he take a perfect rest was only a caution so that no other complications might set in.

At Pittsburg. The President's special passed through Pittsburg at 7:30 this morning but no one was awake in the President's private car and no word as to his condition was obtainable. At Johnston, however, the train stopped for a few moments and all was reported well.

Passed Good Night. The President passed a good night. He slept until nearly eight and the inflammation has practically subsided in the wound and he is in no pain.

## IS OFFERED VERY GOOD POSITION

Prof. Hursey, the Blind Piano Tuner, May Go to Rockford to Work.

There is today in Janesville a blind man who is noted in his especial line of work, that of piano tuning. Prof. W. F. Hursey is one of the wonders of the capability of what a person can do for themselves even though deprived of sight, one of the greatest handicaps possible.

Professor Hursey not only tunes pianos, but he makes his way about the city from one home to another with as much accuracy and speed as is often found by persons with eyes and the best of sight. His extremely delicate sense of touch and hearing enables him to daily perform tasks with musical instruments that seem almost impossible.

Left The Institute. Professor Hursey came to Janesville from the Ohio Institute for the blind to teach the students at the state school, how they might become bread winners, in truth, by tuning pianos. He left at the close of last year because he was not in sympathy with the administration along the line of practical education for the blind. Since then he has had all he could do attending to the tuning of instruments throughout the city.

An Example. Recently Prof. Hursey went to Rockford on a visit to the new piano factory that is located there. He was anxious to examine the instruments and see the manner of construction. This factory which was started a year ago, has a daily capacity of ten instruments, and employs one man who does nothing but tune them. He is able to tune six of the pianos daily and considers that considerable work. Prof. Hursey was in the tuning room when the regular tuner was a third through with an instrument and on being asked to try his hand took another piano and tuned it perfectly before his opponent had finished his own.

A Wonderful Feat. To a man acquainted with the piano this is a wonderful feat and immediately the management of the factory tried to hire him to come there to work at a good salary. It is probable that he will do so and Janesville will lose an excellent piano tuner and the factory gain one.

## BURGLARS TRIED A BARBER SHOP

Lamonde's Barber Shop Proves Too Tough for the Would-Be Thieves.

The burglars that entered the office of the Electric Light company and the public library on Monday night made an unsuccessful attempt to enter H. A. Lamonde's barber shop on South River street, the same night. The noise made by them while trying to force an entrance to the building aroused the boy sleeping there and the thieves skipped out. It was about 12:30 when they were at Lamonde's and probably went to the other places later in the night.

Depew Satisfied with Life. Mr. Depew, nearly a year younger than Senator T. C. Platt, but still well along in his sixtieth year, wrote from Europe to his colleague on the occasion of the latter's birthday that "I would be quite willing with this bright, beautiful and enjoyable world about us if we could indefinitely postpone the progress of time."

## ONE OF THE THREE PASSED MUSTER

TWO WOULD BE SOLDIERS OF UNCLE SAM FAIR.

CAPT. MC'COY HERE THURSDAY

Many Desire to Enlist, But Only One Is Accepted—Telegraphers Try for Signal Corps.

One out of the first three candidates for enlistment in the United States army was successful in passing the physical examination. Several others have applied since, but Private Blake, who is in charge of the enlistment station here, says that he does not expect a higher average of successful applicants than was found in the first three.

Captain Frank B. McCoy of the 3rd Infantry will be in the city tomorrow morning to administer the oath to those who are qualified for enlistment and sign the necessary papers.

**Not Tall Enough**  
Too short, was the verdict of the examining physician, Dr. J. B. White, after looking over one of the rejected applicants. He was barely five feet four inches in his shoes, while a full five feet four inches, barefooted, is required.

**A Veteran**  
Another would-be-soldier said when asking his application that he had never been in the army or navy. But when it was found that his sight was strictly gone in one eye, he admitted having lost the member in naval service.

**Students Enlist**  
Several students in the Valentine school of Telegraphy wish to enlist in the signal corps. To a skilled operator that branch of the service affords unusual opportunities for advancement. Good telegraphers are urged to consult the men in charge of the recruiting station in regard to the prospects offered.

## WOULD IMPROVE FIRE DEPARTMENT

Chief Klein Will Have a Call Man on Duty at Engine House Nights.

Chief Engineer Klein has been looking over the fire department, since appointment, with an idea of helping the service as much as possible. One thing that has occurred to him is that often at night alarms the fire carriages go out without anyone at the driver on them and consequently when they reach the scene the fire they are obliged to depend on some one from the patrol wagon or other wagons to unroll the hose and make the hydrant connections, and in this way valuable time is often lost.

**Have Call Men There**  
The department has a number of men who receive \$100 a year for fire services and the chief's idea is to have one of these men sleep at the stations every night and be ready to go with the hose wagon to every alarm. By doing this he will always have that a man is on the wagon at the driver whenever there is a fire. It is a good move and the members of the department are of the opinion as the chief.

**IN THE VALLEY OF THE SHADOW**

Mrs. Van Valen

Mrs. Aurelia Van Valen, widow of the late Jeremiah Van Valen, and one of the pioneer residents of this city, was found dead in her bed at her home, 211 North Bluff street, about six o'clock this morning.

Mrs. Van Valen's daughter, Mrs. J. A. Hoskins, sleeping in the next room, heard nothing, although months of watching accustomed her to awaken at her mother's slightest motion. Evidently Mrs. Van Valen had passed away unconsciously.

Death was the result of a stroke of paralysis which the deceased suffered last November. Since that time her left side had been entirely helpless and she had been confined to her bed although she retained all of her faculties to a remarkable degree.

Deceased was eighty-two years of age and had resided in this city for about half a century. She was a kindly Christian woman, a member of the Congregational church.

During this final sickness she has been cared for tenderly by her daughters, Mrs. J. A. Hoskins, of this city, and Mrs. R. Rust, of Detroit, Mich.

## CITY HALL IS A BUSY PLACE

OFFICIALS ARE MOVING IN THEIR BELONGINGS.

ALL WORKING HARD TODAY

Chief Hogan Has His Iron Cages Now Nearly All in Place.

The city hall was a busy place today, a number of the city officials moving into their new quarters. Steam was up on the heating plant and the building was very comfortable.

Gene Fish had a force of men engaged in moving City Treasurer Father's safe into the new vault and putting in the filing cases.

**Vault Narrow**  
The vault door was too narrow to get the safe inside so the door and the fittings had to be removed before it could be run in.

City Engineer Kerch moved into the building on Saturday afternoon and has everything in shape in his office in the south-west corner.

Street Commissioner J. Fredericks has moved all the city tools into his store room and is getting ready to occupy his office.

**Cells in Place**  
Chief Hogan has the women's cells all in place and has moved his desk into his private office in the north-west corner of the basement.

The men's cells have also been moved but can not be set up until some grooves are chiseled in the cement floor for the flanges of the cages and some holes drilled for the bolts that are set in the floor to hold the cages in place.

**Are Nearly In**  
City Clerk Badger and City Treasurer Father are about ready to move and will take possession of their new quarters in a day or so. It will be but a short time before all the officials are installed in the new building.

**\$5,000 MORE IS RECEIVED TODAY**

**Prepare for Banquet:** The King's Daughters of the Baptist church will meet in the church parlors tomorrow morning at nine o'clock to arrange the tables for the church banquet.

**Delays Work:** The rains of yesterday and today will delay the work on Milton avenue and put the contractors back several days.

It was the plan of the Blake Bros. to have it ready for public travel by Sunday next, but it is probable now that it will be some days longer before it can be used.

**Work On Bridge:** Work in repairing the Milwaukee street bridge is rapidly progressing and it is thought that by Saturday it will all be completed. The only work that remains at present to do is the laying of the cedar blocks and the placing of the railing on the river side.

**Want Campaign Insignia:** Republicans about the city are anxiously looking to the state central committee for the adoption of some insignia of their political faith. It has been suggested by some that a white rose, or signifying purity, would be appropriate for the LaFollette men to wear.

**Little Game:** This far this fall little or no game has found its way into the local market and pot hunters are complaining at the scarcity of ducks this fall.

Near LaCrosse and in the Dakotas plenty of hunting is to be had but thus far few birds have come this far south.

**Assembly Convention:** The republicans of the Second Assembly district will hold their convention in the circuit court room on Tuesday, October 7 at 2 o'clock.

The members of the Second Assembly district made no nomination at the time the other assembly districts made their nominations.

**Not A Large Party:** The dancing party given by the Federated Trades council at Assembly hall last evening was not largely attended. The stormy weather kept many away, but those who did attend had a delightful time.

Baldwin & Rehfeld's orchestra furnished the music.

**Study Class to Meet:** The Eastern Star Study Class will meet with the president, Mrs. E. O. Kimberly, Thursday afternoon at 3 o'clock.

Travel will be the class subject and a pleasant meeting is anticipated. The last meeting of the class was held at Idlewild park Sept. 10, when the class was entertained by Mrs. W. H. Merritt and Mrs. J. C. Harlow.

**Will Be Married:** Otto Kruger has taken a week's vacation from his duties to go to St. Louis to be married. Mr. Kruger is a skilled mechanic employed by the Union Switch and Signal company of Chicago, which has a force of men engaged in installing an interlocking signal and derail system at the Mississippi crossing near the county house.

Mr. Kruger will bring his wife to this city.

**Relic For Museum:** Prof. William T. Thiele has in his possession a copy of the Mohawk Advertiser, a newspaper published at Schenectady, N. Y., which bears the date of Tuesday, March 19, 1811.

**Party Date is Set:** The party to be given by the golf club in the old armory hall which has been remodeled will take place on October 9.

The workmen are now busy finishing up the decorations and the interior fittings and will have everything ready for the opening, October 9.

## NOVEL PROGRAM MAKES MUCH FUN

AUDIENCE ENJOYS BUNCH OF BURLESQUE SELECTIONS

AT CONGREGATIONAL CHURCH

Discordant Songs and Instrumental Numbers Greeted with Laughter at Unique Social.

One of the most amusing socials ever held in the city was given last evening, under the auspices of the Christian Endeavor society of the Congregational church.

The church parlors were well filled with members and friends of the society and they enjoyed thoroughly the burlesque program which was given.

**Wild Music**  
The performers all appeared in full evening dress, some of the costumes being marvels of grotesque art.

The program included piano solos and duets by artists who scorned all ordinary musical knowledge; a cornet solo by a female wonder whose selection was enthusiastically endorsed; an illustrated selection from Shakespeare by a stage struck maiden; a violin solo which outlived anything of the kind ever heard before; and selections by the Nonesuch orchestra, led fantastically by a vigorous young woman whose baton bore a remarkable resemblance to a piece of pine kindling.

**Amusing Songs**  
There were several thrilling vocal numbers, the rendition of "On A Sunday Afternoon," by a mixed quartet winning an encore, while the solo, "Sing, Sweet Birds," was made especially effective by a chorus of "caws" from small boys in the background.

Every selection was greeted with loud laughter, the audience making almost as much noise as those who took part in the program.

The performers were all presented with mammoth bouquets, with which it was strongly suspected that they had provided themselves beforehand.

**The Artists**  
Those who participated in the program were Misses Alice Estes, Laura Dudley, Alice Fenton, Margery Nicholson, Helen Estes, Josephine Fenton, Maud Nicholson and Charles Johnson, Oscar Halverson and Mr. Merrill.

**Grand Reception**  
After the program a reception was given for the performers.

The refreshments consisted of mixed candy and punch, which looked and tasted very much like ice water garnished with nasturtium leaves.

An immense dishpan served as a punch bowl. The playing of games followed and every one enjoyed a very hilarious time.

**VEGETABLE**  
Preparations only enter into the composition of Smith's Little Liver Pills. Their action is smooth. You can depend on them. 25c pills, 50c boxes, \$1.00 sent by mail on receipt of price. Smith's Pharmacy, 1010 Broadway, New York City.

## Mrs. Laura S. Webb,

Vice-President of Women's Democratic Clubs of Northern Ohio.

**T**HERE ARE MANY sickly women between the ages of 45 and 55, but there are very few invalids over 55 and 60 years of age. The change of life coming to a woman near her forty-fourth year, either makes her an invalid or gives her a new lease on life. Those who meet this change in ill health seldom live ten years afterward, while a woman who lays aside the active duties of womanhood in health seldom fails to live on in happiness, years after she has passed 60. This is truly a critical time.

Mrs. Laura S. Webb.

Mrs. Laura S. Webb, of Toledo, Ohio, recognizes the change of life as a dangerous period and she also has faith in Wine of Cardui. She writes: "As I had always been troubled more or less at the menstrual period, I dreaded

the change of life which was fast approaching. While visiting with a friend I noticed that she was taking your Wine of Cardui, and she was so enthusiastic about it that I decided to try a bottle. I experienced some relief the first month, so I kept on taking it for three months and now I menstruate with no pain and I shall take it off and on now until I have passed the climax. I do not dread it now, as I am sure that your Wine of Cardui will be of great benefit at this time."

Wine of Cardui is the remedy to re-inforce a woman against the shock that comes with the change of life. It re-establishes healthy functions after years of suffering. In doing this it has saved thousands of sufferers just in time. Do not wait until suffering is upon you. Thorough preparations should be made in advance. Begin the Wine of Cardui treatment today.

**WINE of CARDUI** A million suffering women have found relief in Wine of Cardui.

## ROOSEVELT CUT BY SURGEON'S KNIFE

### UNDERGOES MINOR OPERATION

Wound on the Shin, Which He Received in Trolley Accident at Pittsfield, Mass., Develops an Abscess and Is Pumped Out.

Indianapolis, Ind., Sept. 24.—A threatening abscess, the result of a shinbone bruise received in the trolley accident near Pittsfield, Mass., several weeks ago, sent President Roosevelt under the surgeon's knife in this city and ended his tour of the Northwest before it was well begun.

The President is in no danger. His ailment is not even dangerous. The abscess was only forming, and had not yet become ugly. When opened with the scalpel, two ounces of pure serum, not the more virulent pus, was drawn from it.

The operation was of the simplest. There was nothing in the ailment which made it necessary to affect the President's general health. There is nothing of pulse or temperature or respiration to be chronicled as in cases which have any claim to be regarded with seriousness.

The really trifling nature of the President's "illness"—trifling, that is, if it were the affliction of a less distinguished personage—is shown by the official statement, prepared under the direction of the physicians just before the President's train left here for Washington.

**Physicians' Statement.**  
In the case of an ordinary citizen the cause of all the trouble would probably be described as "a slight gathering resulting from a bruise which has been lanced and is now all right." The statement in the more imposing phraseology of the physicians follows:

"At 3:15 o'clock the President went from the Columbia Club to St. Vincent's hospital in his own carriage, and shortly after he was in the hospital the operation required was performed by Dr. George H. Oliver of Indianapolis, in consultation with the President's physician, Dr. George A. Lund, and Dr. George J. Cook, Dr. Henry Jameson and Dr. J. J. Richardson.

Should Recover Quickly.  
"At the conclusion of the operation the physicians authorized the following statement:

"As a result of the traumatism (bruise) received in the trolley accident at Pittsfield, Mass., there was found to be a circumscribed collection of perfectly pure serum in the middle third of the left anterior tibial region, the sac containing about two ounces, which was removed.

"The indications are that the President should make speedy recovery. It is absolutely imperative, however, that he should remain quiet and refrain from using the leg. The trouble is not serious, but temporarily disabling." George B. Cortelyou, "Secretary to the President."

**Serum Pumped Out.**  
The President went home on a stretcher against his will. He has been so little affected by the development of the skin trouble that he refused anesthetics when put on the operating table, except the local application of a cocaine spray, such as surgeons always use in the simplest cases.

The operation, if such it may be called, was over in less time than it takes to tell it. A little surgical appliance like the end of a syringe drawn to a fine point was inserted in the swelling, which stood out on the President's skin midway between the knee and ankle. A miniature pump was attached, the cavity under the peritoneum was emptied "by aspiration," as the doctors say—which is another term for pumping—and it was an over.

## A Miraculous Feat.

"It seemed that nothing short of a miracle could save my little daughter from an untimely death," says City Marshall A. H. Malcolm, of Cherokee, Kan. "When two years old she was taken with stomach and bowel trouble and despite the efforts of the best physicians we could procure, she grew gradually worse and was pronounced incurable. A friend advised

## SQUATTERS' TITLE NOT GOOD

Supreme Bench Gives Illinois Steel Company Jones Island.

Madison, Wis., Sept. 24.—The supreme court denied the motion for a rehearing in the case of the Illinois Steel Company against Alex Budzisz, one of the squatters on Jones Island, in which the decision was in favor of the company.

This case involved the title to property worth millions of dollars on the Milwaukee lake front. The Jones Islanders claimed squatters' title and were successful in some of their litigation, but this decision of the supreme court will virtually decide fifty other cases now pending and give the Illinois Steel company possession.

## PACKING MERGER IS DECLARED OFF

### FEAR EFFECT ON CONGRESS

Kings of Meat Trade Harken to Voice of People as Expressed in Demand for Tariff Revision and Give Up Combine.

Chicago, Sept. 24.—The combination of the great packing houses of the country, which has been under consideration and in process of actual formation for the last six months, has been finally abandoned, at least for the present. The decision not to complete the combination is due in a large degree to the attitude of the national administration toward trusts as outlined by President Roosevelt in his recent speeches, and to the chance that in the event of a consolidation Congress would remove the tariff on cattle.

It is learned that a final meeting of the heads of the firms known as the Big Four had been held, at which it was agreed to end all negotiations at once.

### Swifts Stop Inventory.

This was followed directly by an order issued from the office of Swift & Co. that the firm's employees should immediately discontinue the inventory of property and stock, which had been ordered and started for the purpose of tabulating a report of the financial condition of the company which was to have been used as a basis of the division of shares in the combine.

The same secrecy that has attended all the movements toward an actual "meat trust" was observed in the decision to bring the project to an immediate end. The influence of the action of the leaders was felt in the stock market at once, however, where speculative traders had become uneasy over their holdings of Swift & Co.'s stock, bought up in anticipation of the successful formation of the trust.

### Stock Takes a Slump.

Swift & Co. is the only stockyard company whose shares are on the general market, and in the belief that the concern would dominate the trust it found many purchasers among the speculators.

The delay in completing the negotiations had rendered the speculators uneasy, and the quotations fell off seven points from Monday's figure, closing at 157. There were only moderate sales, but the general belief that things were not progressing smoothly left the market in this line without support and the price went down sharply under the pressure of the general suspicion that the deal would not go through. The statement made so often that the combination would be brought to a successful conclusion was reiterated without effect.

### Promoters Are Scared.

It was indicated that the completion of the combine would be announced on Sept. 27, but that was before President Roosevelt started out on his trip.

The declarations made by the president at Wheeling, Cincinnati and other cities, coupled with the prominence given, not by him but by others, to the subject of tariff revision as a means of restraining trusts, are believed to have indicated to the packers that the right time had not come to form their gigantic corporation, which would aim to dominate the sale of meat all over the world.

It may be that the claims made for Dr. Pierce's Favorite Prescription seem almost too great to women who in years of suffering have found no help in doctors or medicines. But it is to be remembered that no claim is made for "Favorite Prescription" which is not substantiated by thousands of women cured by its use. Its effects are truly wonderful. It wipes out past years of pain as a sponge wipes a slate.

Favorite Prescription is the great medicine for women. It establishes regularity, dries enfeebling drains, heals inflammation and cures female weakness. It is the best preparative for maternity, making the baby's advent practically painless.

"When I wrote to you in March asking advice as to what to do for myself," says Mrs. Ella Reynolds, of Guffie, McLean Co., Ky., "I was expecting to become a mother in June, and was sick all the time. Had been sick for several months. Could not get anything to stay in my stomach, not even water. Had menses twice in six months, and threatening all the time with this one. Had female weakness for several years. My hips, back and lower bowels hurt me all the time. Had numbness from my hips down. Had several hard cramping spells, and was not able to do any work at all. I received your answer in a few days, telling me to take Dr. Pierce's Favorite Prescription. I took three bottles, and before I had taken it a week I was better, and before I had taken it a month I was able to help my work. On the 9th of May my baby was born, and I was only sick three hours, and had an easy time."

"We praise Dr. Pierce's medicine for it has cured me."

### TWO CHICAGO MEN GO 1200 MILES

Take an Automobile Trip Through Wisconsin, Stopping Over Night in Janesville.

Dr. Crosbie W. Davis and Mr. Louis T. Roenitz, two Chicago gentlemen, who passed through Janesville some ten days ago in an automobile have returned to their Chicago homes, after having travelled 1200 miles through Wisconsin.

The party consisting of two men and their chauffeur, left Chicago twelve days ago and made an average of 100 miles a day throughout their entire trip. They staid over night in Janesville and went from here to Madison. Their machine was one of the heavy road type and made for endurance, not for speed. In many places the party met with obstacles in the shape of road beds that were almost impassible.

#### Build Roadbed

In one place, near Green Bay, they were forced to cut twigs from the bushes and lay them under the wheels so that they could make headway. Both gentlemen report they were taken for patent medicine men or political spell binders by the citizens of towns they passed through.
